

Auburn Opelika Habitat 2021 Homeowner Application Meeting

Our 2021 Homeowner Application Meeting was a great success! Thank you to everyone who attended these meetings that were held in May of 2021. This was our most successfully attended application meeting yet, as 214 families were in attendance.

On June 1, 2021, we will begin processing the 2021-2022 applicants for homeownership. Thank you to all of the community partners who helped us tremendously by publicizing this event. We truly appreciate your consistent partnership.

All interested applicants should review the basic program information and income guidelines listed on our website at auburnopelikaahabitat.org. At the application meeting, specific information is covered about how to become a Habitat homeowner. Therefore, attending this informational meeting is a requirement for anyone who would like to be considered for our program.

If you missed the 2021 Application Meeting, you will need to wait and attend the next application meeting in 2022. There will not be a waiting list for this meeting, so it is very important that interested applicants check our website and [Facebook page](#) monthly for updates on the 2022 application meeting. Once the 2022 meeting dates have been established, they will be publicized on our [Facebook page](#) and our website at auburnopelikaahabitat.org. It will also be publicized greatly in the local newspapers and on the radio. All of the information you need to know will be announced in the outlets previously mentioned.

We politely request that you do not call us to inquire about the application meeting, but rather contact us via email at auburnopelikaahabitat@gmail.com if you have any questions.
