

# Michael Garrett Memorial Thoughts

Michael was born on December 15th, 2023, in Columbia, Missouri. He would later move with his family to Lee County where he would also graduate high school from Lee Scott Academy. He stayed in Auburn and attended Auburn University to receive a degree in history. He then studied at Texas Tech and received a master's degree in museum studies. Michael worked at the Auburn University Library until he retired. Michael always loved books and was very intelligent as many described him as an encyclopedia. He was a very kind and thoughtful soul who loved children. The Habitat family misses him greatly. We would like to thank Marilyn Garrett and his family for their gracious memorial gift.
